Horizonll

Education

2023–Present **School of Vehicle and Mobility, Tsinghua University (THU)**
B.E. Student in Vehicle Engineering

Research

Research Interests

Robotics

Autonomous Driving

Machine Learning

Research Experience

March 2024–Present **iDLab**, School of Vehicle and Mobility, THU
Robot Localization
Advisor: Prof. Shengbo Eben Li

December 2024–Present **LEAP Lab**, Department of Automation, THU
Efficient Multimodal Large Language Model
Advisor: Prof. Gao Huang

Awards and Scholarships

2025	RoboCup China Open 2025, Humanoid League	*Champion*
2025	Challenge Cup, THU	*Second Prize*
2024	Global Campus AI Algorithm Elite Competition, China	*First Prize*
2024	Global Campus AI Algorithm Elite Competition, Beijing	*TOP 1*
2024	Chen Xiaoyue Scholarship, THU	
2024	Hardware Design Competition, THU	*Third Prize*
2024	Hardware Design Competition People's Livelihood Track, THU	*First Prize*
2024	RoboCup 2024, Humanoid League AdultSize	*5th Place*
2024	RoboCup 2024, Humanoid League KidSize	*TOP 8*
2024	Intelligent Vehicle Competition, THU	*First Prize*
2024	RoboCup China Open 2024, Humanoid League	*Champion*
2024	Intelligent Vehicle Competition, THU	*Excellence Award*

Professional Activities

Teaching Assistant

Spring 2025 **Intelligent Car**

Fall 2024 **Humanoid Soccer Robot**

Fall 2024 **Exploration to Scientific Research of Lab**

Decision and Perception Group Leader, THMOS

September 2024–Present *THMOS, a RoboCup Team of THU*

Lead the decision and perception group to develop multi-robot decision-making, object detection and localization algorithms of the humanoid soccer robots

Skills

Python, C/C++, ROS, Linux, PyTorch
